

[SpeakSearch GraphQL User Guide](#)

# How to install the extension

## 1. Upload via ZIP/Archive

- Back up your store's database and web directory
  - Download the extension zip file and extract the zip file
  - Transfer the **app** folder into the **Magento2 root** directory on the server
  - Enable maintenance mode **php bin/magento maintenance:enable**
  - Run the command **php bin/magento module:enable MageINIC\_Core MageINIC\_SpeakSearchGraphQl**
  - Run the command **php bin/magento setup:upgrade** to install the extension
  - Run the command **php bin/magento cache:clean** to clean the cache
  - Disable maintenance mode **php bin/magento maintenance:disable**
  - Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.
- 

## Store Configuration

- Please include the following query in the body section to fetch the module store configuration values.

**End Point :** {{baseurl}}/graphql

**Method:** POST

**Request:**

```
{
  storeConfig {
    speaksearch_enable
    speaksearch_button_image
  }
}
```

### Response :

```
{
  "data": {
    "storeConfig": {
      "speaksearch_enable": "1",
      "speaksearch_button_image": "default/voicebutton.png"
    }
  }
}
```

You receive store configuration data set on the backend, including:

- **speaksearch\_enable** - Enable the speaksearch module functionality in the Website via the Yes/No option.
- **speaksearch\_button\_image** - Custom speak search button image path.

### Note

- In the Yes/No dropdown, the value of "Yes" corresponds to "1," while the value of "No" corresponds to "0."
