

Speak Search GraphQl User Guide

How to install the extension

1. Install via composer (recommend)

- Enable maintenance mode php bin/magento maintenance:enable
- Run the command composer require mageinic/speak-search-graphql
- Run the command php bin/magento module:enable MagelNIC_Core MagelNIC_SpeakSearchGraphQI
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode php bin/magento maintenance:disable
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

2. Upload via ZIP/Archive

- Back up your store's database and web directory
- Download the extension zip file and extract the zip file
- Transfer the MageINIC folder to the Magento 2 app/code/ directory on the server
- Enable maintenance mode php bin/magento maintenance:enable
- Run the command php bin/magento module:enable MagelNIC_Core
 MagelNIC_SpeakSearchGraphQI
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode php bin/magento maintenance:disable
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

Store Configuration

 Please include the following query in the body section to fetch the module store configuration values.

End Point : {{baseurl}}/graphql

Method: POST

Request: { storeConfig { speaksearch_enable speaksearch_button_image } }

You receive store configuration data set on the backend, including:

- **speaksearch_enable** Enable the speaksearch module functionality in the Website via the Yes/No option.
- **speaksearch_button_image** Custom speak search button image path.

Note 💬

• In the Yes/No dropdown, the value of "Yes" corresponds to "1," while the value of "No" corresponds to "0."
